PROFILE

Information Technology graduate with hands-on experience in IT Governance, IT Risk, Compliance, and Quality Assurance at PT ASDP Indonesia Ferry (Persero), a state-owned enterprise. Contributed to drafting IT policies and preparing governance, risk, audit, and compliance documentation, including ISO 27001:2022, Personal Data Protection, and Business Disaster Recovery materials. Supported IT planning through application portfolio management, IT initiative prioritization, and the 2027 IT budget plan. Also designed and executed 487 manual test cases across functional, regression, SIT, and UAT cycles, validated REST APIs with Postman, and prepared test reports to support release decisions. Familiar with COBIT, ISO 27001, SDLC, STLC, and Agile, with strong analytical, documentation, and stakeholder coordination skills.

EXPERIENCE

PKM Microsoft Excel Training 2025 05/2025 – 11/2025

Member Laguboti, Indonesia

- Served as a member in the PKM (Pengabdian Kepada Masyarakat) for Microsoft Excel Training 2025, focusing on community education outreach.
- Developed training modules covering basic to intermediate Excel skills, including formulas, data organization, and charts.
- Taught sessions to teachers at nearby schools, delivering hands-on instruction to build practical proficiency

PT ASDP Indonesia Ferry (Persero) 02/2026 – 09/2026

IT Planning & Governance and Quality Assurance Cempaka Putih, Jakarta Pusat

- Drafted IT policies and prepared governance, risk, audit, and compliance documentation, including ISO 27001:2022, Personal Data Protection, and Business Disaster Recovery.
- Supported IT risk assessment, audit preparation, and follow-up monitoring of findings.
- Maintained Application Portfolio Management (APM) data and supported IT initiative prioritization and the 2027 IT Budget Plan (RKA/RKF).
- Designed and executed 487 manual test cases (functional, UI, SIT, regression, UAT) based on business requirements, and logged and retested defects.
- Validated REST APIs with Postman, ran performance tests with Apache JMeter, and prepared test reports for go/no-go release decisions.
- Coordinated with developers and cross-functional stakeholders on IT planning, testing, and release schedules.

EDUCATION

Del Institute of Technology 08/2023 – 08/2026
Information Technology Laguboti, Indonesia
GPA: 3.54 / 4.00
Relevant Coursework:
Relevant coursework: Software Engineering, Software Design, Software Security,Database Systems, Web Development, Object-Oriented Programming, Data Structures &Algorithms, IT Governance.

PROJECTS

Glioma Brain Tumor Classification 10/2025 – Present
Website & AI/ML Model

- Analyzed clinical/genomic dataset for glioma grading: preprocessed features to classify Lower-Grade Glioma (LGG) vs Glioblastoma Multiforme (GBM)
- Implemented Multi-Layer Perceptron (MLP) model: captured non-linear patterns in tabular data for accurate tumor severity prediction.
- Tech stack: Python , Pandas (data prep), Jupyter Notebook, Ensemble methods.

Dentalogic8 08/2025 – Present
Mobile & AI/ML Model

- Built React Native app: real-time camera scan, image upload, ICDAS (D0–D6) classification, and treatment recs for underserved users.
- Engineered YOLOv12 models: tested 3 backbones (R-ELAN, MobileNetV3-small, EfficientNetB0) + 3 necks (FPN, BiFPN, PANet) on 6,313-image Zenodo dataset (Roboflow-annotated).
- Tuned hyperparameters via Optuna (20 trials, 400 epochs) on NVIDIA H200
- Tech stack: React Native (TypeScript), Python (PyTorch, Jupyter), YOLOv12, ONNX/ONNX Runtime, Optuna, OpenCV, NVIDIA H200.

Ambarita Digital 01/2025 – 06/2025
Website & Mobile

- Designed system architecture, workflows, and business processes login flow, UMKM registration, news management
- Built features for user login, UMKM registration, village news management, resident data handling, and digital forms
- Implemented admin modules for managing users, UMKM data, village news, galleries, and digital documents.
- Led QA via Cypress (E2E testing) & Appium (UI automation on Android/iOS): coverage, cross-device compatibility, and bug-free auth/notifications

Luminous 10/2024 – 12/2024
Mobile

- Built core features: user registration & login, product listing, product detail, favorites, cart system, checkout flow.
- Developed admin module for product CRUD, image upload, and real-time order management.

- Connected front-end interfaces to Firestore/Realtime Database for seamless product and order updates.

CERTIFICATES

Data Science Bootcamp - Sanbercode
- Mastered key areas: Basic Python & Statistics (lists, dictionaries, functions, loops, descriptive stats); Pandas (Series/DataFrames, indexing, transformation, reshaping, merging); Visualization; Data Analysis & Machine Learning

IBM Data Analyst Professional Certificate
- Completed 9 courses: Excel basics/analysis, SQL databases, Python for data science/AI, visualization/dashboards with Jupyter, Cognos, and capstone project on real-world datasets.

SKILLS

Manual Testing
Test plan, test scenario, test case design;functional, UI, usability, smoke, regression, SIT, UATtesting; web and mobile (Android/iOS)

API Testing
Postman; REST API, JSON, HTTP status codes,response validation

Automation Testing
Cypress (web E2E), Appium (Android/iOS UIautomation), Katalon, Selenium

Performance Testing
Apache JMeter

Concepts
SDLC, STLC, Agile/Scrum, database & SQL basics

Soft Skills
Detail-oriented, analytical thinking, clearcommunication, problem solving, timemanagement, teamwork, fast learner, objective inreporting results

VOLUNTEERING

Student Leadership Program 08/2024 – 06/2025
Kakak Asuh Laguboti, Indonesia
- Engaged in 12 month program focused on campus adaptation and character development for new students

Visualization Division 08/2024 – 09/2024
Member Laguboti, Indonesia
- Recognized for contributions to visualization setup in Inauguration, Dies Natalis & Graduation Ceremony
