Agnes Elyestra Sidabutar

IT Planning & Governance | Quality Assurance

agneselyestra@gmail.com +6282361594563 Jakarta Pusat

PROFILE

Information Technology graduate with hands-on experience supporting IT Planning & Governance, Quality Assurance, and project documentation at PT ASDP Indonesia Ferry (Persero). Experienced in monitoring IT initiatives, validating project data, preparing governance reports and work papers, tracking risks and follow-up actions, and supporting audit readiness. Familiar with IT governance principles, IT risk management, ISO 27001:2022, COBIT and cross-functional coordination.

EXPERIENCE

PKM Microsoft Excel Training 2025 05/2025 – 11/2025

Member Laguboti, Indonesia

- Served as a member in the PKM (Pengabdian Kepada Masyarakat) for Microsoft Excel Training 2025, focusing on community education outreach.
- Developed training modules covering basic to intermediate Excel skills, including formulas, data organization, and charts.
- Taught sessions to teachers at nearby schools, delivering hands-on instruction to build practical proficiency

PT ASDP Indonesia Ferry (Persero) 02/2026 – Present

PT ASDP Indonesia Ferry — IT Planning & Governance Cempaka Putih, Jakarta Pusat

- Supported the planning and execution of Joint Planning Session (JPS) activities through the preparation of timelines, workpaper templates, proposals, event rundowns, and presentation materials.
- Maintained and reviewed Application Portfolio Management (APM) data to improve application inventory completeness, data accuracy, and alignment with IT planning requirements.
- Contributed to the review, weighting, and prioritization of IT initiatives by considering business requirements, program priorities, and planning criteria.
- Assisted in consolidating and refining the 2027 IT Budget Plan (RKA) and Work Plan Forecast (RKF) to ensure consistency between proposed initiatives, application requirements, and budget allocations.
- Supported the preparation and organization of IT governance, risk, audit, and compliance documentation, including ISO 27001:2022, Personal Data Protection, and Business Disaster Recovery materials.
- Coordinated with cross-functional stakeholders to support IT planning, governance reporting, application portfolio review, and budget discussion activities.

EDUCATION

Del Institute of Technology 08/2023 – 08/2026
Information Technology Laguboti, Indonesia
GPA: 3.54 / 4.00
Relevant Coursework:
IT Governance, Software Engineering, Database Systems, Software Design, Software Security, Data Structures & Algorithms, Object-Oriented Programming, Web Development

PROJECTS

Glioma Brain Tumor Classification 10/2025 – Present
Website & AI/ML Model
- Analyzed clinical/genomic dataset for glioma grading: preprocessed features to classify Lower-Grade Glioma (LGG) vs Glioblastoma Multiforme (GBM)
- Implemented Multi-Layer Perceptron (MLP) model: captured non-linear patterns in tabular data for accurate tumor severity prediction.
- Tech stack: Python , Pandas (data prep), Jupyter Notebook, Ensemble methods.

Dentalogic8 08/2025 – Present
Mobile & AI/ML Model
- Built React Native app: real-time camera scan, image upload, ICDAS (D0–D6) classification, and treatment recs for underserved users.
- Engineered YOLOv12 models: tested 3 backbones (R-ELAN, MobileNetV3-small, EfficientNetB0) + 3 necks (FPN, BiFPN, PANet) on 6,313-image Zenodo dataset (Roboflow-annotated).
- Tuned hyperparameters via Optuna (20 trials, 400 epochs) on NVIDIA H200
- Tech stack: React Native (TypeScript), Python (PyTorch, Jupyter), YOLOv12, ONNX/ONNX Runtime, Optuna, OpenCV, NVIDIA H200.

Ambarita Digital 01/2025 – 06/2025
Website & Mobile
- Designed system architecture, workflows, and business processes login flow, UMKM registration, news management
- Built features for user login, UMKM registration, village news management, resident data handling, and digital forms
- Implemented admin modules for managing users, UMKM data, village news, galleries, and digital documents.
- Led QA via Cypress (E2E testing) & Appium (UI automation on Android/iOS): coverage, cross-device compatibility, and bug-free auth/notifications

Luminous 10/2024 – 12/2024
Mobile
- Built core features: user registration & login, product listing, product detail, favorites, cart system, checkout flow.
- Developed admin module for product CRUD, image upload, and real-time order management.

- Connected front-end interfaces to Firestore/Realtime Database for seamless product and order updates.

CERTIFICATES

Data Science Bootcamp - Sanbercode
- Mastered key areas: Basic Python & Statistics (lists, dictionaries, functions, loops, descriptive stats); Pandas (Series/DataFrames, indexing, transformation, reshaping, merging); Visualization; Data Analysis & Machine Learning

IBM Data Analyst Professional Certificate
- Completed 9 courses: Excel basics/analysis, SQL databases, Python for data science/AI, visualization/dashboards with Jupyter, Cognos, and capstone project on real-world datasets.

SKILLS

Soft Skills
- Analytical Thinking
- Problem Solving
- Communication
- Team Collaboration
- Time Management
- Adaptability

Governance
- ISO 27001
- IT Governance
- IT Compliance
- Risk Assessment
- Business Process Mapping
- Project Documentation & Reporting
- IT Risk Management

VOLUNTEERING

Student Leadership Program 08/2024 – 06/2025
Kakak Asuh Laguboti, Indonesia
- Engaged in 12 month program focused on campus adaptation and character development for new students

Visualization Division 08/2024 – 09/2024
Member Laguboti, Indonesia
- Recognized for contributions to visualization setup in Inauguration, Dies Natalis & Graduation Ceremony
